## What is **nomoreforms™**?

### **An Internet-based, paperless workflow system that extends measurable cost reduction benefits to the Healthcare Industry**

**nomoreforms™** is a patented technology that provides a vital link in supporting healthcare providers in meeting their greatest challenges - controlling costs, reducing paper and advancing quality patient care.

- ❖ We provide forms automation and management - Your proprietary forms are digitized and automated and can be completed via the Internet.
- ❖ Repetitive data is automatically populated into all forms (name, address, etc.).
- ❖ Personnel can view, populate and route completed forms to nurses, doctors or business units.
- ❖ Possesses customizable data entry capabilities for both patient use and facility staff.
- ❖ Friendly Front End User Interface
- ❖ Robust Management Portal (back end)
- ❖ Custom Data exports. Our solution is automated and managed with user-defined business rules.
- ❖ **Simple and inexpensive, yet, capable means of becoming paperless!**

### **A Green Solution!**

**Our clients report a 38% reduction in costs by using the **nomoreforms™** system.**

The **nomoreforms**™ solution requires no special hardware or software

**nomoreforms**™ presents an inexpensive, flexible means of becoming paperless!

## Industry Specific Solution

The **nomoreforms**™ solution has numerous applications in the healthcare industry. Each client's need is unique and the NoMoreForms Solution provides a flexible environment to accommodate the requirements of any work flow.

### How will **nomoreforms**™ benefit you?

- ❖ Become Paperless with Web-Based Forms. Forms can be completed and populated from anywhere with internet access 24/7.
- ❖ Digital signature capability replaces the need for wet signature.
- ❖ Background Screening, Drug Testing and Clinical Services can be ordered and received with a click of a button.
- ❖ Data can be uploaded into 3<sup>rd</sup> party and legacy systems without data entry.

### **nomoreforms**™ Healthcare Solutions have included:

- ❖ Automate Doctor and Licensed Personnel Credentialing
- ❖ Automate 3<sup>rd</sup> party referrals
- ❖ Streamline, Document and Automate Doctor & Staff Communications & Authorizations
- ❖ Facilitate Patient Record Transfers while maintaining HIPPA requirements.

Each organization's use of the **nomoreforms** technology varies.
